

HW3_Prob2c_Some Hints

Posted Feb 26, 2019 9:48 PM

Dear all,

In HW3 Prob2c, you can use morphological functions as list below:

MATLAB: <https://www.mathworks.com/help/images/morphological-filtering.html>

OpenCV: https://docs.opencv.org/3.4.1/d9/d61/tutorial_py_morphological_ops.html

Hope these functions may give you some inspirations and simplify your work.

Besides, you can also apply other techniques you exercised before, e.g. edge detector, etc.

Good luck!

Wei
